DETAILED ACTION

Allowable Subject Matter

1. Claims 45-47, and 49-54 are allowed.
2. The following is an examiner's statement of reasons for allowance: Claims 45-47, and 49-54 are allowable since certain key features of the claimed invention are not taught or fairly suggested by the prior art. In claim 45, "in response to the refresh signal, reading digital indications stored in the memory buffers, converting the digital indications into analog voltages and updating charge intensities on the pixel cells using the analog voltages". In claim 50, "sense amplifiers to respond to a refresh signal, to read the digital indications from the memory and provide the digital indications to the digital-to-analog converters". The prior art of record singularly or in combination fails to anticipate or render the above underlined limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
